

# Summer of 2011

## New in the Park

We have installed a new gate and made the park entrance very nice, you can see the first house built on lot 229.

The Runway is in top shape, we have cleared off all the weeds and sprayed with weed killer.

The runways cracks have all been fixed and swept of any debris, which makes for a nice landing.

We had the first ever "Take the crew for airplane rides" - Thanks Wayne. Wayne is a new member of our Fly in Club.

"ATTENTION: All Lot Owners" Do not forget our board meeting in August. All lot owners should be there.

If you are interested in building a Hanger or House talk to our Park Manager / Builder Bob Miles @ 435-668-7942
